

Why eX200 Series

The cost-effective EXOR HMI

for when reliability returns to be paramount.

Enhancing Connectivity for IIoT

EXOR eX200 Series: Technology serving the process

The new EXOR eX200 Series combine excellent technical specifications with high performance, integrating CORVINA software and platform.

In addition to providing control and data visualization capabilities, these HMIs open the doors to IIoT world, offering accessible entry to innovation and technological advancement.

They provide advanced security to safeguard sensitive data and can be customized to fit specific needs.

Essentially, they represent a strategic investment for operational efficiency.

One device for integrating all machine controls

The user-friendly interface facilitates the adoption of digital technologies

Excellent worldwide tech support provided

Multi-protocol compatibility: integrating with a vast range of systems

Main features

- 5" to 15" touchscreen
- Capacitive Multitouch
- 64-bit CPU, 1.6 GHz
- 2 Ethernet ports
- CAN Port
- JMobile Studio programming
- CORVINA Remote Connectivity - Option

The X Platform world

In the dynamic world of industrial automation, the X Platform exists to bridge the gap between the aspirations of machine builders and the real-world needs of factory owners. The platform serves as a comprehensive toolbox, helping you address current challenges while preparing for future ones.

The X Platform is more than just technology; it's a partnership. It empowers you to tailor solutions to your unique challenges, ensuring that you remain at the forefront of industrial innovation. The goal is to give machine builders the freedom to focus on what they do best: creating outstanding machines that meet the needs of factory owners like you.

What is a Today's Need...

1. Edge Security - Protecting your data and your business.
2. Remote Access & VPN - Simplifying system integration, providing you with the ability to monitor and adjust processes anywhere.
3. Fleet Management - Making updates remotely: time and resource saving.

... a Tomorrow's Want ...

1. Remote & Condition Monitoring - Giving you the tools for proactive diagnostics.
2. OEE & Energy Efficiency - Monitoring and managing resources for sustainable growth.
3. Performance Consultancy - Offering insights into optimizing your machinery's potential.

... and a Future Vision?

1. Marketplace Integration - Creating potential channels for resource and information exchange.
2. Virtual Logic Control - Preparing for the possibilities of AI-driven process enhancements.

Your Objective,
Your Solution,
Our Technology
